LIONEL*...AN INVESTMENT IN HAPPINESS!

FEATURING: Exclusive MAGNE-TRACTION*..Two-Tone Locomotive Whistles..Diesel Horns Clean White Odorless Puffing Smoke..Solid Steel Wheels..All Steel Trucks and Axles Automatic Knuckle Type Couplers..A Huge Assortment of Action-Packed Accessories

COMPLETE TRAIN SET PRICE INFORMATION

On the following train set pages you will find illustrated a sparkling variety of "027" and "O" gauge outfits packed with brand new features.

Your Lionel dealer has on display a well chosen selection of these very outfits — at prices to fit the demands of every budget.

Visit your Lionel dealer and ask for his prices on complete train sets and any other equipment whose prices are not shown.

The suggested retail prices which are shown in this catalog—the prices of those locomotives, cars, track and "027" transformers which make up complete outfits — are solely for your guidance if you buy these items separately rather than in money-saving, complete sets.

TO GET HIS COMPLETE SET PRICES, VISIT YOUR LIONEL DEALER NOW!

EXCLUSIVE LIONEL MAGNE-TRACTION —WHAT IS IT?

Permanent Alnico magnets incorporated in the locomotives attract the solid steel driving wheels of the locos to track surfaces, thus preventing wheel slippage and permitting locomotives to travel at higher speeds, take steeper grades and sharper curves without derailing.

MAGNE-TRACTION is the only permanent method of providing greater traction for electric trains.

There is nothing like MAGNE-TRACTION and remember . . . it is found only in Lionel locomotives.

- **On the following pages** you will see the widest selection of locomotives, cars, operating accessories and transformers ever presented!
- **And because it is** the world's largest assortment, you have these most important advantages with Lionel—right from the start.
- **You can choose** exactly the train outfit you want — the one that fits the size of your family . . . your budget . . . and your home.
- **Every birthday** . . . every Christmas you can add to your Lionel outfit from the dozens of exciting accessories in the Lionel catalog.
- **Lionel gives you** both realism and easy operation because Lionel trains and track are perfectly engineered . . . built to take constant handling year after year. No wonder Lionel train families consider it a lifetime investment, to be handed down from generation to generation.
- **Lionel locomotives** have over-sized motors plus exclusive MAGNE-TRACTION enabling them to pull longer loads and give longer service.
- **Lionel rolling stock** operates on the only type of track that permits you to change layouts and build elaborate systems easily without a lot of complicated wiring and extra gadgets.
- **You can make more** track layouts in less space with Lionel track than with any narrower gauge tracks. In fact, a circle of "027" track measures only 27" in diameter and can be placed on an ordinary bridge table top if no more space is available. A circle of "O" gauge track measures only 31" . . . and Lionel rolling stock is interchangeable in both gauges.
- **See for yourself** why Lionel trains are known as "AN INVESTMENT IN HAPPINESS" — an investment that pays dividends in happy family relationships — FOR YEARS AND YEARS AND YEARS.

All prices, structural or mechanical designs and colors in this catalog are subject to change without notice.

Lithographed in U.S.A.

No. 520—$19.95 if bought separately

The pulling power of this loco and the careful attention to real railroad details are usually found in locomotives that cost much, much more!

The motor in this 8½"-long replica of the 80-ton General Electric No. 520 features a sturdy parallel plate, involute gearing arrangement for plenty of extra pulling power.

Self-centering knuckle couplers on both ends will mate with any operating Lionel knuckle coupler. Four solid steel driving wheels plus two steel pilot trucks to guide her over switches and crossings.

Realistic pantograph on the roof is collapsible. Brilliant coloring and detailing of the four ornamental headlights, ladders, rail and vents . . . all make the No. 520 an outstanding loco!

Your Lionel dealer has this locomotive as part of a complete "O27" Lionel train set...at a money-saving complete outfit price.

Your No. 520 loco pulls such freight cars as the famous "Baby Ruth" box car . . . a gondola car . . . a scale detailed caboose.

With the No. 520 set you get Lionel's powerful, dependable No. 1015 45-watt transformer. It starts, stops, reverses the locomotive, lets you accelerate or diminish speed, all with one control. Also operates accessories. 115 v. 60 cycles. UL approved.

No. 1015 45-watts $6.95

All Lionel locomotives and cars are a better buy when you purchase them in sets. With "O27" sets you get locomotive, cars, track, transformer, uncoupling section, lockon, lubricant and instructions. Ask your Lionel dealer about his complete assortment of "O27" outfits, starting as low as $19.95.

NEW! LIONEL'S "O27" GE 80-TON ELECTRIC LOCOMOTIVE FOR PULLING POWER...HANDSOME DETAILING INCLUDING PANTOGRAPH ...BRILLIANT COLOR...No. 520

INTRODUCING EXCITING BRAND-NEW "027" GE 44-TON DIESELS...

WITH FRONT AND REAR REMOTE CONTROL COUPLERS AND MAGNE-TRACTION

Efficient Streamlined Transformer Provides All the Power Your Railroad Needs...

This dependable, 45-watt transformer is designed to give you worry-free operation of your [illegible] Diesel or any other "starter" Lionel Train set. Lets you run her fast or slow, accelerate or diminish speed with split-second response. UL approved. Operates on 115V, 60 cycles, AC.

No. 1015 45 watts. Operates train and accessories $6.95

No. 627 Lehigh Valley in red and white.
No. 628 Northern Pacific in black and yellow.
No. 629 Burlington in silver and red.

These locos, if bought separately, $1[illegible].95 each.

Originally built by the General Electric Company as an industrial switcher, this versatile, practical 400 h.p. locomotive proved so successful that today many of the big railroads use her for short-line freight and passenger service.

This colorful Lionel reproduction carries the same unique "steeple cab" as the GE prototype. Her body details are complete and accurate: ventilating grills, access doors for engines and generators, battery compartments in the understructure, compressor and reservoir [illegible] covers in the front of the cab.

- Equipped with Lionel's exclusive MAGNE-TRACTION to insure efficient hauling of a long string of cars!
- Remote control operating knuckle couplers front and rear!

- High-impact, high-strength, molded locomotive body!
- Illuminated headlight in "Burlington" and "Northern Pacific."
- Sweeping 11⅜" long from coupler to coupler!

You may obtain these locomotives in complete Lionel "O27" sets, at prices that let you save. See your dealer for his complete outfit prices!

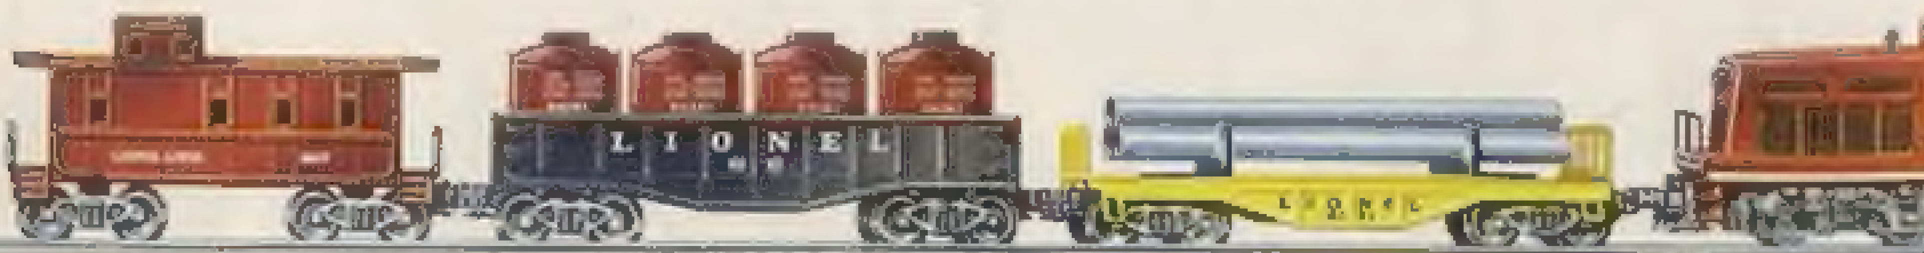

Authentic Freight Cars, Streamlined Passenger Cars Come in Outfits Pulled by Your GE 44-Ton Diesel

Your Lionel dealer has a "good deal" for you when you get this locomotive as part of a Lionel Train set. Look at these brand-new freight cars! The pipe car with pipe sections that you can load and unload, the gondola car with removable canisters, the single-dome "Gulf" oil car. And see that neat new automobile car complete with two removable miniature scale-model automobiles.

Look at these cars carefully — designed from blueprints of the real ones. All are equipped with real, operating knuckle couplers.

Ask your dealer for his complete outfit price including the GE Diesel and three streamlined passenger cars! There's a pullman, a vista-dome, and an observation car, all with interior illumination showing passengers. Note the bright light at the rear of the observation car! This year for the first time you can own a Lionel Diesel passenger train set for under forty dollars!

All Lionel locomotives and cars are a better buy when you purchase them in sets. With "O27" sets you get locomotive, cars, track, transformer, uncoupling section, lockon, lubricant and instructions. Ask your Lionel dealer about his complete assortment of "O27" outfits, starting as low as $19.95.

DIESEL OR STEAM...

They move cars—make up trains

The "Jersey Central" No. 621
A Big New Diesel Switcher with Horn and Magne-Traction...

If bought separately, $22.50

Here's a rugged roustabout ... fully 12½ inches from coupler to coupler ... equipped with wonderful Lionel MAGNE-TRACTION to make quick work of grades, yard work, and get up speed fast with a long train.

She's based on the 1000 h.p., 124-ton Diesel-electric switcher NW2 built by General Motors Electro-Motive Division.

These dazzling colors are the orange and blue of the great "Jersey" line ... the Central Railroad of New Jersey!

- Correct-sounding, built-in, warning horn, powered by dry cell battery and operated by Lionel remote control whistle relay.
- Molded-in details including doors, steps, louvres, ventilating grillwork, side railing, and applied precision ornamental bell and horn.
- Magnetic, remote-control knuckle couplers on both ends.

Be sure to check your Lionel dealer for his complete outfit price that includes the "Jersey Central"! You'll save plenty!

Yardgoat Outfits Pulled by These Switchers Give You Real Car Action!

These switchers pull work trains ... and where you find work trains, you're sure to find the kind of action that makes railroading so much fun.

Look at the operating searchlight car. The big light rotates automatically, casting its beam far into your miniature sky. See the Lionel crane car with cab, boom and hook and its companion in trouble-shooting, the work caboose!

And with these sets you'll get "firsts" on some great NEW Lionel rolling stock: the 3-dome Gulf Oil car, the gondola car with canisters, the exciting new Lionel wheel car with six sets of real Lionel wheels!

Cars in the train sets pulled by these locomotives are especially chosen for the type of work switchers do.

They're yours in sets when you buy the 1615 LT steam switcher or the Jersey Central Diesel switcher!

All Lionel locomotives and cars are a better buy when you purchase them in sets. With "O27" sets you get locomotive, cars, track, transformer, uncoupling section, lockon, lubricant and instructions. Ask your Lionel dealer about his complete assortment of "O27" outfits, starting as low as $19.95.

THESE TWO "027" SWITCHERS LOVE YARD WORK!

—put the railroad yards in order!

Rugged and Practical . . . Lionel's Famous Steam Switcher No. 1615LT!

If bought separately, $22.50

0-4-0 wheel arrangement . . . unusual twin domes . . . "slope back" tender . . . these unique features make this scaled reproduction of the Pennsylvania's steam switcher a sensation on anybody's railroad!

- Operating knuckle couplers, pilot end of engine and rear of tender. The 1615LT measures 15¾" long.
- Genuine "Stephenson-type" double-acting valve gear action.
- Surface detail including air pump, air tank, grab rails, sanding and lubricating piping and steam whistle.
- Cab shows firebox doors, valves, pipes and steam gauges.
- Lights include pre-focused real headlight, simulated backup light on tender.

Get complete outfit prices from your Lionel dealer . . . and save!

No. 1015 45-watts
$6.95

No. 1053 60-watts
$8.95

You Boss the Train with These Streamlined Transformers . . .

These easy-to-hook-up Lionel transformers provide all the power you need for your Lionel "027" outfit. Lets you operate your train by remote control — stop, start and reverse — with all controls at your fingertips.

Insulated against heat, moisture and electrical leakage by use of rigorously inspected, insulated material.

Every transformer has an air-cooled double base of welded, heavy-gauge steel. UL approved. Operate on 115v. 60 cycles, AC.

No. 2018 LTS — if bought separately, $22.50

No. 2018 LTWS—with whistle—if bought separately, $29.95

This powerful, scale-detailed "027" freight hauler comes in two versions, one with smoke, the other with smoke and built-in whistle. These are real beauties with many features found only in higher priced locomotives. See these exclusive Lionel features:

- Powerful headlight with lucite lens . . . green-jeweled running lights, ornamental bell! The 2018 measures 18½" long.
- Sturdy die-cast zinc body with minute surface detailing including rivets, piping, pumps, tanks, side and drive rods and much more!
- Twelve heavy, solid, sintered-steel wheels in 2-6-4 arrangement.
- Authentically-detailed freight-type tender showing simulated coal, with remote control operating knuckle-type coupler at rear.

See No. 2018 in complete Lionel Train sets at your dealer. You save money when you buy a complete Lionel outfit!

LIONEL'S ACTION PACKED ACCESSORIES!

No. 352 Operating Ice Depot. Place ice blocks in station by hand. When refrigerator car stops . . . all by remote control, man moves ice blocks from base of chute into car hatch on top of car. Blocks drop into ice bunker in car. Hatch closes. Set includes depot, ice blocks, refrigerator car. Station is 11¾" long, 4" wide, 9½" high.

No. 497 Operating Coaling Station. 4-way remote control operation! 1) Loaded car dumps coal into bin. 2) Bin is hoisted to top and tilts coal into storage hopper. 3) Bin returns to roll-side. 4) Storage bin doors open to reload coal into car. 9½" long, 6" wide, 10" high. Does not include car.

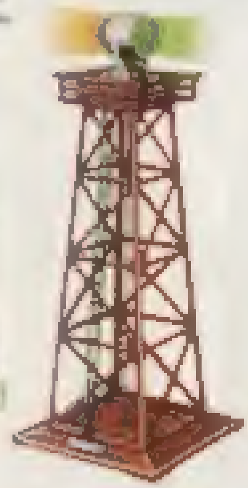

No. 397 Operating Coal Loader. Vibration of lower platform conveys coal onto conveyor belt, which carries it up to car. All by remote control. Detailed Diesel engine housing and bin. 10" long, 7½" wide, 6" high. Comes with coal, controller, wires. Does not include car.

No. 364 Operating Lumber Conveyor. Endless belt carries logs from lower to upper platform and delivers them into lumber car! Red and green "spotting" light. Set includes logs. 29¾" long, 3-3/16" wide, 4½" high. Car not included.

No. 460 Piggyback Transportation Set. Hand crank and lever on platform cause lift truck to move trailers onto special flat car. Loco can then pull away loaded car. When car returns, trailers can be delivered back to platform. Set includes platform, flat car, trailers. Station measures 8½" by 11", 3½" high. Car is 11½".

No. 450 Operating Signal Bridge. Typical "Main Line" signal can span two tracks. Lights change from green to red as train passes underneath. Mount signals in many positions. Use as "block" signal to halt subsequent train automatically. Includes contactor. The bridge measures 10½" wide, 7½" high, 3½" deep.

No. 494 Rotating Beacon. Airline pilots depend on these beacons to guide them to air fields. This one, powered by Lionel "Vibrator," revolves constantly, showing green in one direction, red in the other. Tower is 11¾" high.

No. 356 Operating Freight Station. Bustles with activity as attendants hustle in and out of baggage room with trucks by remote control. Illuminated. Comes with two baggage trucks, set of six posters for use on station. 15" long, 5" wide, 5¼" high.

No. 309 Yard Set. Every railroad needs signs like these to warn the public, instruct engineers. This yard set includes eight different signs with screwholes for permanent mounting.

No. 6019 "O27" GAUGE REMOTE CONTROL TRACK SET. [illegible]

LIONEL TRAINS ARE GUARANTEED AGAINST MECHANICAL DEFECTS ONLY IF USED WITH LIONEL TRACK

LIONEL "O" Gauge Track, Switches

No. 022 "O" GAUGE REMOTE CONTROL SWITCHES with exclusive Lionel automatic NON-DERAILING feature. Approaching train throws the switch electrically so that the switch points are automatically thrown to correct position. Rotating green and red light on switch box indicates position; lights on the switch controller correspond with switch. Equipped with fixed voltage plug for steady operation regardless of track voltage. Can be used to control a block signal to synchronize with switch action. Set consists of a right and a left hand switch, each with its own controller and 3-foot connecting cable.

Also available separately: 022R right hand switch with controller, 022L left hand switch with controller.

With exclusive non-derailing feature

No. 042 "O" GAUGE MANUALLY OPERATED SWITCHES. Have illuminated position indicators with red and green directional lights. For yards, spurs, sidings. Snap-action switch stand can be mounted on either side of the switch. 11" x 8¾". Sold only in pairs, consisting of one right and one left hand switch. Just the thing for growing layouts.

"O" GAUGE CURVED AND STRAIGHT TRACK. Constructed of zinc-plated steel with double flanges for extra strength. Also available in straight or curved half sections.

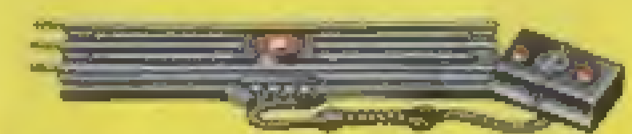

Item	Price
No. OC Curved Track (10⅞" long)	20¢
No. OS Straight Track (10" long)	25¢
½ OC Half Section, Curved Track	25¢
½ OS Half Section, Straight Track	30¢
No. OC-18 Steel Pins (dozen)	10¢
No. 013-11 Fibre Pins (each)	3¢

No. 020X 45° CROSSING. For making "figure 8's" and other track patterns. Made of heavy gauge, double zinc-plated steel.

No. 020 90° CROSSING. Made of heavy gauge, double zinc-plated steel with rigidly embossed base for extra strength. 8-3/16" square.

No. UCS "O" GAUGE REMOTE CONTROL TRACK. Used for uncoupling all cars with magnetic and electro-magnetic couplers and for operating remote control action cars. Comes with two-button controller and 3-foot connecting cable. You'll want several of these in your layout. 10". $4.95

No. LTC ILLUMINATED LOCKON. Insures positive track connection with transformer. Green indicator light signals "power on."

LIONEL TRAINS ARE GUARANTEED AGAINST MECHANICAL DEFECTS ONLY IF USED WITH LIONEL TRACK

No. SP SMOKE PELLETS. One pill in the smokestack . . . and presto! Your steam locomotive puffs clean, white smoke. Absolutely odorless and safe. Approximately 50 tablets per bottle.

No. 927 LIONEL LUBRICATING AND MAINTENANCE KIT. Includes vial of machine oil with applicator, tube of lubricant, can of "Track-Clean", lint-free wiping cloth, sponge, cleaning sticks, dusting brush, emery boards and instruction booklet.

No. 60 HOOK-UP WIRE AND CABLE REEL. Contains 50 feet of special, insulated 18-gauge solid copper wire which can be used for all power connections.

No. 206 COAL. Looks just like real coal—but actually is made of plastic. Won't crumble, dust or smudge.

No. 919 GRASS. Sprinkle it over wet green paint to give your layout a real "outdoor look!"

No. 925 LUBRICANT TUBE. Large 2 oz. tube of grease-type lubricant compounded especially for Lionel trains and accessories.

No. 480-25 CONVERSION MAGNETIC COUPLER. For converting "Scout" type Lionel cars to Lionel remote control uncoupling.

No. 760 WIDE RADIUS CURVED TRACK

This is for railroaders who desire wide, sweeping track curves for high speed operations. Sixteen sections of track form circle seventy-two (72) inches in diameter. Each section measures fourteen inches in length. Mates with "O" track and switches.
